# Future-Proof Your Career

## With growth there's opportunity

SE2 is one of the fastest growing technology and services companies in the country. It's growth powered by talented people with a shared commitment to delighting the customer.

Accelerate your career and grow with us.

# We celebrate success

---

Nearly a third of SE2's employees have been with the company for five years or more. And 17 percent for 10 years or more.

That so many people stay with our company for so long isn't an accident. It's a reflection of the opportunities they've had, the values we share and a culture that celebrates individual and team success.

Meet members of our team that joined SE2 right out of school, and who are advancing in their careers:

---

*"Being straight out of college and in my first 'real' job, it helped to have a lot of hands on training from fellow teammates. Now, my goal is to one day be in management and help our team and company grow even more."*

Sarah Zengel, Missouri State University

Sarah, a 2007 graduate of Missouri State University, began her career with SE2 as a Programmer Analyst. She's advanced quickly, now working as a Senior Product Specialist in our Technology Department focused on product set up and configuration.

*"As SE2 continues to grow, I hope to grow and move up within the company. It's really exciting all of the changes that have happened, both within my own team as well as the company as a whole, and I want to continue to watch the changes and become a bigger part in them in the future."*

Josh Baden, University of Kansas

Josh was an SE2 intern while finishing up his mathematics studies at the University of Kansas. His experience as an intern led to an entry-level role as Actuary and quick promotions with the Actuary and Product teams.

# SE2

## PurposeBuilt and FutureProof

---

### Welcome to SE2

SE2 is the company transforming the way life and annuity insurance companies do business. We've built industry-specific technologies, solutions and an approach to servicing customers that is a step ahead of their needs.

Our growth is fueled by fresh ideas and new ways of doing things. It's why we recruit and train bright and curious people with a passion for the possible.

Curiosity, inventiveness, and a passion for excellence. These are qualities that drive the SE2 team to discover what's possible as they help insurance companies change how they serve their customers.

### Grow Your Skills and Your Career

Advancement comes from growth, and growth comes from learning.

We offer you a rich learning environment, real world training in technical and business skills, and a culture of continuous improvement.

We also offer opportunities to work closely with customers and to explore the different career paths and many opportunities for advancement.

# Future-proof your career

- ✔ meaningful work
- ✔ extensive training in business skills and technology
- ✔ healthy work-life balance
- ✔ advance at the rate of your ambition
- ✔ global company, with opportunities in eight cities and three continents
- ✔ competitive compensation and benefits
- ✔ opportunities to be involved and give back to the community

SE2 provides technology solutions, services and support to many of the top life and annuity insurance company brands in the world. Drawing on our roots in the insurance industry, we offer customers end-to-end administration capabilities, deep expertise in business transitions and a purpose-built technology platform.

Our customers rely on us to help them get new products to market fast. And to shift from fixed to variable cost models that improve efficiencies and the customer experience.

## Accelerate your career and join our team

We will be recruiting at select campuses throughout North America.

Visit <http://www.se2.com/careers> or email us at [hr@se2.com](mailto:hr@se2.com) to find out more about how to future-proof your career at SE2.

## We give back

SE2 has offices around the country and around the world, but regardless of location, we share a sensibility that comes from our Midwestern roots. We're committed to the communities in which we do business and to helping our neighbors.

Each year, some of our company's profits are placed in a charitable trust for distribution to various local charities and to support causes including domestic violence and diversity.
